## Interesting to Asthma Sufferers.

Daniel Bante of Ottumwa, Iowa, writes: "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all." Sold by O. T. Erhart.

## PRESIDENT PROMPTLY PUTS HIS NAME TO RATE BILL

Washington, June 30.—The president at 11:15 p. m. yesterday signed the railroad rate bill. He also signed the immigration bill and the bill for the construction of a lock canal across the isthmus of Panama. When the senate adjourned at 11:45 p. m. yesterday there was only one bill of importance that was still in conference and lacking agreement, and that was the "pork barrel bill"—providing for public buildings in various parts of the country. There were fourteen items of difference between the two houses and it was impossible to complete the work last night. The rate bill, as signed by the president, goes into effect sixty days from June 29, 1906.

## Proctor Asks for Instructions.

Proctor presented to the senate the report of the conference on the agricultural bill containing the meat inspection provision. He said that because of the great principle involved the senate conference had decided to advise the senate to yield on the meat inspection amendment. Both Proctor and Hansbrough requested the senate

to authorize the conference to accept the house provision and Proctor entered a motion to that effect, which Beveridge supported.

## Nelson Registers a Kick.

Nelson declared that the bill had been shaped in the interest of the packers and the range cattlemen and that in the absence of a correct label "it seems a legislative abortion and we submit like licked dogs and accept their meat, not knowing whether it be fresh or as old as Methusalem. I for one do not feel like submitting, and I should not do so if the provision had not been attached to an appropriation bill."

## Senate Finally Succumbs.

Stone confessed to speaking in behalf of the packers among others of his constituents, and complained especially of the practice of holding the packers of the entire country responsible for the derelictions of a few packers in Chicago. McCumber said: "We have met the enemy, and we are theirs; indemnity, \$3,000,000." He opposed the motion to recede. Proctor withdrew his motion and the bill went back to conference. But later in the session

the senate receded and the house won the fight, which passed the bill.

## CASES AGAINST CORPORATIONS

Statement Sent to the Senate by the Department of Justice.

Washington, June 30.—Attorney General Moody has sent to the senate a statement of all suits that have been instituted by the department of justice under the Sherman anti-trust law, the interstate commerce law and the Elkins law—when, brought, the character, and the final disposition. The statement is divided into periods by presidential administrations, but attention is directed to the fact that neither the Sherman anti-trust law nor the Elkins law was enacted until after the close of the first Cleveland administration, and the act regulating interstate commerce was in effect less than two years of that administration. The Elkins law was enacted during the administration of President Roosevelt.

Attached to the detailed statement, which will be printed as a public document, is a summary which shows cases brought under the act to regulate commerce: Under Cleveland, 1885-1889, one indictment, which was nolle prossed; under Harrison, 1889-1893, 35 indictments, 5 convictions, 4 acquittals, 18 nolle prossed, 7 quashed and 1 dismissed; Cleveland's second term, 1893-1897, 19 indictments, 5 convictions, 1 acquittal, 8 nolle prossed, 3 quashed; under McKinley, 1897 to Sept. 14, 1901, 22 indictments, 5 convictions, 1 acquittal, 4 nolle prossed and 12 not prosecuted; under Roosevelt, Sept. 14, 1901, to June, 1906, 6 indictments, 5 nolle prossed, 1 dismissed.

The cases brought under the Elkins act under Roosevelt's administration were as follows: Eleven indictments for receiving rebates; 19 for granting rebates; 6 for conspiring to grant rebates—a total of 36, of which 9 were convicted, 2 acquitted, 3 nolle prossed and 22 are pending. These figures do not include petitions to enjoin departure from published rates, actions to restrain railroads from giving preferences, and minor infractions of the laws to regulate railroad rates.

## Why Didn't He Get a Medal?

Battle Creek, Mich., June 30.—Seymour Phillips, a large man, became angered at John Kruus, a slight lad, and picked him up and threw him into Kalamazoo river. The boy would have drowned had not employees of a nearby livery barn rescued him. Phillips was fined \$10.

The North Side laundry has shut down temporarily owing to their inability to obtain skilled labor.

## REFLECTIONS UPON BRYAN'S ENDORSEMENT.

The emphatic endorsement given by the Wisconsin State Democratic convention to William Jennings Bryan's prospective candidacy for the democratic presidential nomination gives assurance of the final elimination of the feeling engendered by the injection of the money question into national politics at the time of the first Bryan campaign. It was most appropriate that the democracy of this state recognize democracy's greatest and most influential exponent. It is most appropriate that men like ex-Senator Vilas decline to permit a properly settled political difference to obscure to his view the conspicuous worth of one whose services to his country cannot be measured by his ability to carry a presidential election. Regardless of politics, right thinking men will prefer the recognition of a clean and capable leader in full sympathy with the public and hostile to the encroachments of self-seeking monopolists to such standard bearers as the Sphinx of Usopus, whose silence smothered unpopular and unrighteous views which his managers dared not permit him to utter. It should be possible in America for a presidential campaign to be fought out with candidates and for principles assuring the public that the triumph of neither would work harm to the nation.

In congratulating Wisconsin democrats upon their action there is but one regret that will be felt. It is that the convention did not place on record evidence of its broad and unequivocal honesty of policy by expressing commendation of the career of Senator Robert M. La Follette. The Tribune, with an optimism not wholly unwarranted by the trend of public thought, is looking on to the time when the right deeds of great and good men will have the applause and approval of all, no matter what the political effect figured in the narrow fashion of old, may be. It would not have hurt the democrats of Wisconsin to say the word of approval which was on nearly every tongue in that convention. We are most of us for such men as Bryan and La Follette, party lines notwithstanding. These men have recognized the kinredship in their respective efforts, each has commended the work of the other; why cannot the parties be as frank as the leaders?

But that is past now. Bryan will become a presidential nominee to defeat whom a greater than Taft will have to come forth. There are two men in the republican party who can give him serious battle. He may be defeated in the election, but to good citizens there must have come an abiding joy at the news that is rushing from state to state of his utter triumph over the Wall street element of his own party who, seizing temporary control of the democracy, debauched it for their monopolistic ends while a republican wiser than his party seized the weapons they had cast away and gave their unrepresentative puppet the soundest drubbing ever administered to a presidential candidate.

## THE NORWEGIAN SAENGERFEST.

It is expected that nothing that has been in La Crosse in the past in the way of a convention has attracted the number of strangers to this city that will appear here upon the occasion of the Norwegian Saengerfest, July 6, 7 and 8.

The visitors at this celebration will be the right sort of people, and in selecting La Crosse as the city in which they are to be entertained they have done us an honor appreciation of which we must not fail to show.

In America, we are all Americans. But there is no better citizen in all the length and breadth of the land than the Americans whose fathers were Norwegians. Thrifty, honorable, intelligent, affable—these men of the Northland invite the respect and good will of their neighbors.

And they come to us singing. They will court our good will, they will provoke us to pleasant laughter. They will spend with us happy days to which they will lend the charm of excellent music.

Let us meet them with the goodfellowship with which they are to approach us. Let us attune ourselves to the spirit of joyful melody that is the essential feature of their association. Let us give delighted ear to their minstrelsy, and let us ALL JOIN IN THE CHORUS.

"Punch" Robertson, unique in politics as in show business and horsemanship, has capped the climax of the "circus" campaign in his manner of introducing his candidacy as clerk of court. He has gone the inventor of the game one better, and has carried his campaign into the drawing room by resorting to expensive art of a nature so choice that the women will admire the candidate who stands on their mantle piece. Its so different, but its just like "Punch"—both photograph and eccentricity of method. And, by the way, "Do you solemnly swear?"

There is no meaner thing on earth than the newspaper that waits until it believes some man is "down and out," then jumps on his back at the finish in order to later throw out its chest and say, "I did it." This is an old trick of insincere publishers to create the impression that their attack is fatal.

Rochefoucauld wrote: "We promise according to our hopes, and perform according to our fears." If some of your employees illustrate this truth, take up the "Help Want" ads as a course of reading—and perform according to your interests!

Carlyle said: "Make yourself an honest man, and then you may be sure that there is one rascal less in the world." Also—read the ads and you may be sure that there is one less "easy mark" in the world.

"Let thy mind still be bent, still plotting, where and when, and how thy business may be done. The sure traveler, though he alights sometimes, still goeth on."—Herbert.

"Be busy about some rational thing—so that satan may always find thee occupied."—St. Jerome. To read want ads is a rational thing to do—and a thrifty.

The popularity of The Tribune's cartoon service is growing daily. You see, there IS a field in La Crosse for a cartoon service.

"They are the abstracts and brief chronicles of the time"—are the want ads.

## JUST LIFE

Self confidence goes a long way toward making good.

"Do you solemnly swear to vote for 'Punch'?" promises to become a synonym for "23" to the other candidates.

Mr. Roosevelt has issued another signed statement that he will positively refuse to become a candidate under any and all considerations. Now, if Mr. Roosevelt sticks to it, it will be President Bryan in 1908.

Senator Tillman maintains that the senate has passed John D. Rockefeller's rate bill.

The Tribune could almost start a moon with the number of "scoops" it publishes every day.

Yes, that exclusive picture of the new Theater-Elks' club in The Tribune, was a very good one.

Guatemala is again at war—which brings up the question, will a duck swim?

If we thought we could still be in love at the end of sixty years of wedded life, we'd promptly take out a license, and it wouldn't be a hunting license, either.

Pitchfork Tillman's description of the Big Stick hustling away from the firing line, in yesterday's news columns, should have found place in Puck.

News dispatches say that when Mrs. Thaw tells her life story to the court, the jury will be ready to acquit Thaw of blame for murder of White. It is likely the rest of the world will quit believing pretty women are angels.

Because a high school girl still had an hour and a half's hard work to make up the high school authorities sent her word at the last moment she could not graduate. Her proud relatives from various parts of the north-west came to La Crosse to see her graduate. It is a safe assumption that the girl in question has a high opinion of the La Crosse school and the kindness of its teachers.

Two games tomorrow and warm weather. Great time for the fans. —W. V. K.

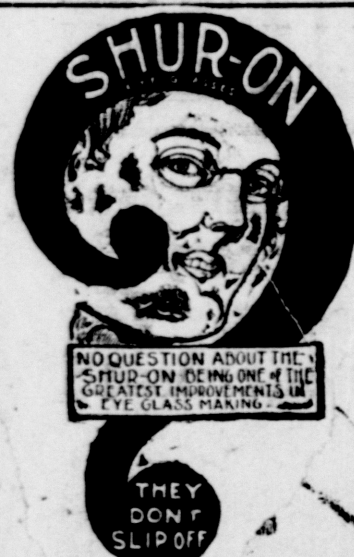

## BETTER THAN SPANKING.

Spanking does not cure children of bad wetting. If it did there would be few children that would do it. There is a constitutional cause for this, Mrs. M. The chances are it can't help it.

## Preston Branch Service.

The state railroad and warehouse commission met in this village at the courthouse to hear the evidence in relation to better accommodations and traveling facilities on the Preston branch of the C. M. & St. P. road. Commercial Traveler Clarkson of Albert Lea, the petitioner on behalf

of the Commercial Travelers union appeared in person with Thomas D. O'Brien of St. Paul as his attorney. He gave evidence stating that the Reno-Preston branch of the Milwaukee road furnished the poorest service of any road in his district.

A committee of three from all towns on this branch except Preston were present and gave evidence as to the inadequate accommodations.

The Milwaukee road was represented by J. M. Stapleton of Dubuque division and by Attorney Root of Minneapolis.

## Gund's Peerless Beer

Acts as a tonic and aids digestion, enriches the blood wonderfully and promotes the health and longevity of men and women. Peerless is really a temperance drink, because it never contains more than 3 1/2% of alcohol—not enough to hurt anyone.

Dr. I. M. P. Southwick, La Grange, N. C., says: "I do not think the moderate use of good beer injurious to the health of adults. I believe it to be a great benefit to some people both as a beverage and by aiding digestion and assimilation. I think beer is of food value to the human organism."

Peerless is brewed from choicest barley malt and the very finest hops, by the celebrated Gund Natural Process. This process retains and develops the strength of the grain and the fragrance of the aromatic hops in a most wonderful way.

Peerless is bottled at the brewery only. Delivered anywhere in cases. Sold at all high-grade bars, restaurants and dining cars. A splendid home beer. Telephone a trial order. You never tasted a more delicious brew. Sparkling, wholesome, pleasant and pure.

## ENTERTAIN AN OLD FAVORITE

C. O. Cowles Has Many Friends in La Crosse

It is the source of a great deal of pleasure to relate little incidents relative to Charles Cowles and Dorothy Alden, who are presenting a delightful playlet entitled "Johnathan's Courtship," at the Bijou this week. Mr. Cowles will be remembered by local audiences for his clever work as Uncle Jed in "Old Jed Prouty." His work for years has been with characters such as he is now playing and has made a close study of each detail relative to the character and by so doing has earned for himself a position second to none in his line, his charming wife professionally known as Miss Alden, is also in the foremost rank of her chosen profession and Cupid performed a very meritorious deed when he shot his arrow in the direction of these talented people, it is a rare thing indeed when two people so exceptionally well matched are seen. The playlet is brimful of sweet pathos and clean comedy and "touches the spot," so to say, in a manner that has elicited the full appreciation and applause of each audience this week at this popular playhouse. They have been the guests of a number of the best citizens of our city the past week renewing acquaintances made during previous engagements.

## Judge Well The Home Beer

Have it as wholesome and healthful as the market affords.

In our process of malting we have converted the starchy matter of the cereals into malt sugar, which is one of the functions that the human digestive organs are called upon to perform in the digestion of ordinary foods, as no fat can be made by the human economy without sugar. In other words Perfection Beer is a pre-digested food.

## TOLEDO ICE TRUST CAN'T ESCAPE TERM IN BASTILE

**Must Serve Six Months Behind Bars  
as any Other Criminal--Other  
Cities After the Offenders**

TOLEDO, O., June 30.—Judge Kinkade at a hearing of a motion for a modification of the sentences of the ice men, yesterday reduced the fines of R. C. Lemmon and R. A. Beard of the Hygeia Ice company to \$2,500 each and their imprisonment to six months in the workhouse, the minimum penalty under the statutes. The court reserves the right further to modify the sentences later if developments should justify. Judge Kinkade ordered no further delay in arranging for the convicted men to begin serving their sentences. The entries in the Beard and Lemmon cases will be made quickly and commitment papers issued.

Philadelphia After Them, Too.  
PHILADELPHIA, Pa., June 30.—Warrants were issued yesterday for the arrest of thirteen ice dealers, who are accused of entering into a combination to maintain exorbitant prices. Preliminary hearings will be held on Monday. All of the persons named, with the exception of one, are members of the ice exchange. It is charged that the price of ice has been advanced from \$2.50 to \$5 and \$7 a ton.  
To Study Toledo Methods.  
INDIANAPOLIS, Ind., June 30.—Charles P. Benedict, county prosecutor, left early yesterday for Toledo, O., to study the methods employed by the prosecutor there in obtaining the conviction of the members of the Toledo ice trust.

## TO INVESTIGATE RENTING OF FARMS

(Special Tribune Dispatch.)

MADISON, Wis., June 30.—A study of the cause of the rapid increase in farming on rented land and of the best methods of renting farm land is to be made during the present summer under the direction of the University of Wisconsin by Professor H. C. Taylor of the department of political economy. This investigation is to be undertaken because it has been found that the number of tenant farmers are increased so rapidly in recent years that now more than one-fourth of the farmers of southern Wisconsin are renters. It is more important that the investigation should be undertaken by the state, for the reason that there is no permanent landlord class. Most of the landlords are retired farmers who, by hard work and careful saving, have managed to become the owners of good farms from which they have a right to expect a good income in their old age. The tenant farmers, as a rule, are young men who are just getting a start, but who, if they have the energy and opportunity, will in many instances become the owners of farms. The importance of a proper adjustment of relations between these two classes so that the land may be well farmed to the benefit of the owner, the tenant, and the state, is evident.

**Purpose of Investigation.**  
The purpose of this investigation is two fold: first, to ascertain the cause of the increase of the tenant class; and second, to make a study of the

best methods of renting land. Out of the 20,000 men who own farms which they rent to tenants, it is believed that a large number will be found who have given considerable thought to the best methods of letting land. By bringing together the experience of the many, it will be possible to prepare a report of land tenancy in Wisconsin which will doubtless be of great value to a large number of men who have little experience in renting land.

**To Get Information First Hand.**  
In order to get as complete and accurate information as possible concerning the conditions, Professor Taylor, during the next three months will visit farmers in all counties of Southern Wisconsin. He has arranged trips through Iowa, Lafayette, Green, Rock, Walworth, Kenosha, Racine, Milwaukee, Waukesha, Jefferson, Dodge and Oaukee counties. He desires to meet all farmers of these counties who are interested in the renting of land, and will call upon all those who, by sending their names and addresses indicate their desire to furnish information. Dr. Taylor has been studying the subject of land tenancy both in Europe and America, and has recently published a monograph on "The Decline of Land Owning Farmers in England." The results of the present investigation of farm land tenure in southern Wisconsin will be published as soon as the material can be compiled.

## MADISON GETS 1907 GOLF TOURNAMENT

JANESVILLE Wis., June 30.—The Maple Bluff Golf club of Madison will be the scene of the next tournament of the Wisconsin Golf association. Oshkosh and Green Lake clubs were both under consideration until late last evening, when a telegram received from Frank Jacobs of Madison on behalf of the Maple Bluff club for the next meeting was accepted. At the business meeting which followed Edward M. Fuller of Madison was elected president, and Frank Jacobs of Madison secretary and treasurer.

The last day of the tournament was marked by a rain which drove everyone but the players from the links. The eighteen hole medal play contest for the state championship for ladies was played under the worst atmospheric conditions of the week.

Mrs. Arthur Harris of Janesville won with a total score of 113, with Miss Catherine Fifield of Janesville runner up with a score of 126. The first round was played during an electric storm of much violence. Mrs. Charles Deering of Chicago, western woman champion last year, did not compete in the state tournament, but played Mrs. Page of Chicago an eighteen hole medal play contest for the cup offered by the association for outside players, winning with a total score of 95. The score by rounds

was:

Mrs. Frank Blodgett... 66 71 137  
Mrs. Riley, Milwaukee 70 71 141  
Miss Marcia Jackman and Miss Mabel Jackman started, but did not finish, owing to the storm. In the contest between Mrs. Deering and Mrs. Page the scores were:

Mrs. Page ..... 5 53 109  
Miss Katherine Fifield of Janesville won the putting contest of thirty-six holes open to all ladies, with a total score of 94.

## LOLITA ARMOUR IS CURED

CHICAGO, Ill., June 30.—Lolita Armour returned to Chicago completely cured from the malady which affected her hip for years. She stepped from the train without aid and ran to her grandmother, Mrs. P. D. Armour. The little girl came all the way from New York with her nurse. Mr. and Mrs. J. Ogden Armour are expected to come to Chicago Saturday.

Miss Lolita looked the picture of health. Her cheeks were rosy and her eyes sparkled. After treatment that began with an operation in "bloodless surgery" by Dr. Lorenz, and other subsequent operations, the little girl, who was thought at one time to be doomed to permanent deformity, it is now believed is cured.

## Sees Great Social Change

TERRE HAUTE, Ind., June 30.—At the graduation exercises of a class of ninety-eight at the Indiana normal school yesterday Governor Hanly, in speaking of corruption in all walks of life, said: "The American people are on the verge of a great revolution a great and sudden economic and social change. These changes will restore the equal rights of men and the happiness of the people. Most of the progress of the race is due to evolution slow and imperceptible but these are the times when conditions are so hardened that a revolution is needed."

## STANDARD COUL D NOT SUPPLY DEMAND FOR GASOLINE FOR AUTOS

CLEVELAND, June 30.—The Standard Oil Company today announced that high grade gasoline testing from 74 to 76 degrees, has been withdrawn from the market on account of the enormous demand for the product and the inability of the company to supply it. The high grade gasoline named is used almost universally in operating automobiles, naphtha launches, etc. It is stated that gas engines generally can be altered so as to permit the use of common or stove gasoline, as fuel.

## POLICE FORCE HIM OUT OF CHAIR

TERRE HAUTE, Ind., June 30.—Mayor Bidaman held the fort yesterday, and the councilmen who voted for his removal the night before were deterred from holding a special meeting night. It was believed that, should the council attempt to recognize City Controller Buckingham as acting mayor there would be a free fight. Bidaman has the police department with him and he declared he would not permit Buckingham to preside over a meeting of the council. He is determined to hold the mayor's chair until removed by a court decision.

## KNIFE CURED BOY

TOLEDO, Ohio, June 30.—Frank Meyer, 12 years old, is another of Toledo's incorrigibles who is being reformed with a knife. # NEWBRO'S HERPICIDE

## WHAT HERPICIDE DOES

Newbro's Herpicide destroys the tiny vegetable growth in the scalp that causes dandruff, itching scalp, falling hair and baldness. Once this microbic enemy of the hair is destroyed, and kept out of the scalp, the hair is bound to grow as nature intended, except in cases of chronic baldness.

## WHAT SUNLIGHT DOES

Sunlight is nature's great germ destroyer and prophylactic. The effect of sunlight upon the scalp proves highly beneficial, if a complete plan of scalp cleanliness is carried out. This cannot be done without the use of Herpicide, which prevents reinfection and keeps the scalp pure and wholesome.

MORE MEN AND WOMEN HAVE GOTTEN POSITIVE RESULTS FROM THE USE OF NEWBRO'S HERPICIDE THAN FROM ALL OTHER HAIR REMEDIES COMBINED

## HOT WEATHER TROUBLES

The perspiration that exudes in increased quantities during the summer months carries out poisonous and refuse matter that would otherwise clog up the pores of the scalp.

Incomplete elimination of this waste produces a hot and feverish condition of the sweat glands known as Prickly Heat for which Herpicide gives immediate relief. Herpicide stops itching of the scalp almost instantly.

Col. Thomp Burton, Member of the Board of Managers of the Ohio Penitentiary, writes as follows of Newbro's Herpicide:

"As to Herpicide I find it an excellent hair dressing as well as being the first and only absolute dandruff cure I have found. Upon my advice a number of my friends are using Herpicide and the unanimous verdict is, that Herpicide is, in all respects, everything that its manufacturers claim for it."

Alderman H. Schlimer read for its first and second reading an Ordinance to establish the grade of Pine street, Vine street and State street from 21st street to Losey's Boulevard, which was referred to Ordinance and Street and Alley Committees.

Ald. Valentine read a resolution regarding the calling of Committee meetings which was defeated on call of the roll. Ayes, 14. Nays, 4.

Alderman Grover offered the following report and resolution which were unanimously adopted on call of the roll. Ayes, 18. Nays, 0.

To the Hon. Mayor and Common Council of the City of La Crosse, Gentlemen:

Your Committee on Bridge and City Attorney, to whom was referred the resolution authorizing the Board of Public Works to employ sufficient help to turn the Black river draw bridge during high water, and charging the cost therefore to the county of La Crosse, beg leave to report that we have had this matter under consideration and would recommend the adoption of said resolution.

WHEREAS, During high water it is necessary to turn the Black river draw bridge to permit the passage of a passenger launch which makes regular trips between La Crosse and Onalaska during mornings and evenings, and

WHEREAS, said bridge was erected by the County of La Crosse which said County is responsible for the maintenance thereof be it

RESOLVED, By the Mayor and Common Council of the City of La Crosse, that the Board of Public Works employ such help as may be necessary to turn the draw of said bridge during high water and be it further

RESOLVED, That an accurate account be kept of the expense of such help and a bill thereof presented to the County of La Crosse for repayment.

Ald. Grover read a resolution for planking west side of Black River bridge which was referred to the Bridge Committee and City Attorney.

Ald. Grover read a resolution for plans and estimates for road and concrete protection near at the Mississippi river bridge which was referred to the Bridge Committee.

Alderman Withee offered the following report and resolution which were unanimously adopted on call of the roll. Ayes, 18. Nays, 0.

To the Hon. Mayor and Common Council of the City of La Crosse, Gentlemen:

Your Committee on Judiciary, to whom was referred the petition of Frank Powell for the payment of certain interest accruing on sewer certificates held by him from the 31st day of January, 1906 to the date of tax sale in May, 1906, beg leave to report that we have had this matter under

consideration and find that Chapter 71 of the laws of 1901 provides that the holder of these certificates is entitled to all that is realized out of these certificates at the sale over and above the fees of the treasurer. One per cent per month was collected on these certificates from the 31st day of January until the time of the sale amounting to \$45.45 and according to law Mr. Powell is entitled to this sum. We would therefore recommend that an order be drawn on the treasurer in his favor for that amount and for that purpose we offer the following resolution.

Respectfully submitted,  
W. W. Withee  
W. B. Rose  
Com. on Judiciary.

RESOLUTION.  
RESOLVED, By the Mayor and Common Council of the City of La Crosse, that an order be drawn on the city treasurer in favor of Frank Powell for the sum of \$45.45 to settle interest collected on his sewer certificates from Jan 31, 1906 to date of tax sale in May, 1906.

Alderman Withee offered the following report which was adopted by v. v. v.

To the Hon. Mayor and Common Council of the City of La Crosse, Gentlemen:

Your Committee on Judiciary, to whom was referred the petition of C. G. Blair for a refund of the money paid by him for the purchase of two tax certificates on Lot 6, Block 11 of Simonton's addition to La Crosse, beg leave to report that we have had said matter under consideration and find that the statement in the petition that there is no such lot as Lot 6 Block 11 of Simonton's addition to La Crosse is not true; that the plat of said addition shows such a lot but it is a very small piece of ground and the only thing that is wrong with it is that it appears to be overassessed in 1903, but that is a question that the Common Council has nothing to do with. Mr. Blair is entitled to take a deed on this piece of ground on his two tax certificates and it appears that the ground is worth the amount for which it was sold, and we would therefore recommend that the paper of the petitioner be denied.

Respectfully submitted,  
W. W. Withee

## BURIED A DAY, IS RESCUED ALIVE

NEW YORK, June 30.—After fighting against death for more than twenty-two hours, Jeremiah Fisher, a plumber, was rescued alive today from a sandpit at Tompkinsville, S. I., in which he had been imprisoned. The rescued man is in a pitiable condition from exhaustion, however, and it is not certain that he will survive. Fisher was working in an excavation, when an avalanche of sand came pouring down upon him. Before he could scramble out the sand had fallen in until only his head was visible.

For hours rescuers worked to free the imprisoned man, but the shifting sand surged back almost as fast as they could remove it. The rescuers notified Fisher's family, and his wife, mother, and brother witnessed the all night fight. Physicians and nurses also stood by to render any aid they could, and two clergymen awaited the call to administer the last rights.

At daylight the rescuers had succeeded in uncovering the imprisoned man's body as far down as the hips. Then ropes were attached under Fisher's arms, but the combined strength of twenty men failed to move him. Fisher then was unconscious. The rescuers stuck to their task, however, and hours later, when the senseless form of Fisher was drawn out, a spark of life still lingered.

The boy was walking along the river bank with a fishing pole in his hand, when he slipped and fell into the water. The body was recovered after two hours.

CHICAGO, Ill., June 30.—There is trouble ahead for the funny denizens of the waters about Oconomowoc, Wis., for former President Grover Cleveland will arrive there next Friday to be the guest for one week of James H. Eckels, president of the Commercial National Bank of Chicago, at his summer home. Mr. Cleveland will stop in Chicago.

"Mr. Cleveland has promised me several times to visit me at my summer home and at the same time enjoy the splendid opportunity for indulging in fishing," said Mr. Eckels yesterday. "His promised visit has been several times postponed on account of business, but I am reasonably sure that he will arrive next Friday."

Mr. Eckels denied that any political significance was attached to Mr. Cleveland's proposed visit, adding: "Politics, I think will not be mentioned. He is coming to play and not to work. It may be that Mr. Cleveland may go farther north to fish for muskellunge."

## S.S.S. CURES CANCEROUS ULCERS

Whenever a sore or ulcer is slow in healing, and shows signs of eating into the surrounding flesh, it is safe to say that the blood is infected with cancerous germs. Some old taint or poison that has lain dormant awaiting a favorable opportunity to assert itself has found an outlet on the face, arms, legs or other part of the body, and the place has become inflamed and festered, and a chronic ulcer is the result. When middle age is reached or passed, and the vital powers are naturally weaker, a hurt of any kind heals slowly, and often an insignificant scratch or bruise on warty growths, moles, pimples, etc., will begin to inflame and are soon large, eating ulcers. The cancerous germs are rooted in the blood, and while salves, plasters, lotions, etc., keep the surface clean, they are useless in affecting a cure. S.S.S. cures cancerous ulcers by going down into the blood and removing the germs and poisons which produce the trouble. It cleanses the circulation of all unhealthy matter, and when the cause is removed the sore heals permanently. S. S. S. enriches and strengthens the entire blood-supply, and being purely vegetable, it is a pleasant, safe remedy for young or old, and ulcers of every kind yield promptly to its curative properties.
